– Veoliaforce volunteers lend a hand on the emergency logistics platform

– A successful borehole benefits Cameroonian schoolchildren

– Extramuros launches its first Chants Libres furniture lines

– The Veolia Foundation is on LinkedIn

## Humanitarian & Development

### First stone laid in Uvira

In Uvira, Democratic Republic of the Congo, the fight against cholera has entered a new phase. Work has begun to rehabilitate and expand the water distribution network in Uvira, South Kivu.

## Social & Employment

### Extramuros furnishes Les Canaux in Paris

Extramuros, which is an association supported by the Veolia Foundation, was asked to furnish a new building dedicated to the solidarity and innovative economy located in Bassin de la Villette, Paris. This is yet another demonstration of the association's expertise in upcycling.

## Latest projects supported

"4 challenges for 4 seasons" in 2018  
In 2018, the REcyclerie wishes to anchor its conferences in its relationship to time and nature as far as possible while displaying its desire for change and action to its visitors. As such, it implemented, again with the Veolia Foundation's support, a program on the theme "4 challenges for 4 seasons at the Recyclerie" in January.

## Environment & Biodiversity

### Tara Oceans expedition: discovery of over 100 million genes from the marine world

The Tara Oceans expedition (2009-2013) has enabled the collection of plankton samples in all of the world's oceans on board the schooner Tara, and the creation of catalogues of species and genes on a scale never before undertaken. These results are the subject of two articles published in the journal Nature Communications of 22 and 25 January 2018.
