

BeMed unveils its 2021 awardees

BeMed continues to support, through its call for micro-initiatives, projects that aim to reduce plastic use and find alternatives, improve waste collection, raise awareness, engage stakeholders and help implement regulations.

In 2021, 12 new projects in 9 different countries will be added to this network.

Video review of the intervention in Lebanon with Unicef:

Immediately after the explosion on the 4th of August 2020 in Beirut, Veolia Foundation volunteers arrived to support UNICEF Lebanon and WASH (Water, Sanitation and Hygiene) sector partners restore access to safe water for thousands of affected people in the areas of Gemmayze, Mar Mikhail, Karantina, and others.

This is part of the “Standby Agreement” between the two organizations, enabling volunteers from Veolia Foundation to mobilize in the event of a humanitarian crisis and offer their expertise to UNICEF according to needs. Watch this video to learn more about the results of Veolia Foundation and UNICEF Lebanon’s joint efforts in the aftermath of the explosion.
